Transitions: Navigating Life's Changes

ALOA

(Adult Lutherans Organized for Action)

Saturday, May 11, 2019
9:00 am – 3:30 pm

**The Lutheran Church of the
Good Shepherd 3139 County
Road 516 Old Bridge, NJ
08857**

TOPICS for SESSIONS

How Dementia Affects the Brain: In an introduction to Alzheimer's and dementia, learn to recognize features of typical vs not typical aging. Gain insight into the changes that occur in the brain. Discover new ways to interact so that persons living with dementia are supported as persons with purpose and worth.

Re-Membering and Ministering to Persons Living with Dementia: Pastors and lay people gain an overview of how the church can respond and find a comfort level in our dis-ease with disease. Obtain insight into what a person living with dementia experiences. Identify ways to make meaningful connections and provide reassurance of God's omnipresence and everlasting care.

Caring for Mind, Body and Spirit in Thanksgiving to God: An overview of Parish nursing and Congregational Health Ministries, centered on Christ's healing love, stewardship of health, and community outreach.

Stretching for Wellness: Learn simple stretches and strengthening exercises aimed at enhancing balance, coordination, and strength. Promotes wellness and cardiovascular health and aid with relaxation and sleep.

Home to Nursing Home – Helping Your Loved One (and You) Make the Transition: How do you know it is time for your loved one to enter a nursing facility? How do you start the conversation? What level of care is needed? How can I prepare for my loved one to make the transition from home to a nursing facility? Together we will explore these questions and concerns.

HHA – IL – AL – SN – Helping Your Members (and You) Make Sense of the Next Chapter in Life: You recognize it is no longer safe for a member to live on their own. What is the next step: Home health aide; independent Living; Assisted Living; Skilled Nursing? Together we will explore how to begin the conversation with your members and their families, and help you find your role in their lives.

Being Mortal: Based on the book by the same name, this workshop will explore how to use the book as a tool to help people discuss end of life questions in a proactive manner. Usable by individuals, couples, small groups, and church topical classes. The book focuses on the end of life but is useful for the journey that starts when people are no longer able to stay in their own home due to health reasons.

Bless the Years and Milestones: Explore ways for the church to publicly affirm the role of disciple/steward all along the life cycle, but particularly in the later years. There is no "retirement" from discipleship, but we (the church) needs to provide tangible, regular reminders of that in a public forum to affirm our life long journey as a follower of Jesus

Blood Pressure Checks: Throughout the day Colleen Bottcher will do blood pressure checks. Please check the box on registration so we know how much time to allot. Thankyou.

SCHEDULE

9:00a - **REGISTRATION BEGINS**

9:15a – **WELCOME/ Opening Devotions**

9:30a – **Keynote Address By Mark Schoepp
Executive Director ALOA**
